# OVERVIEW OF MEDICAL COLLEGES IN NEPAL

Formal medical education started in Nepal after the establishment of Institute of Medicine, Nepal in 1972 under Tribhuvan University. Previously, only few qualified doctors were present in Nepal before pre-democracy era in 1951. While few eager Nepalese doctors established Nepal Medical Association (NMA) on March 4, 1951 to unite all the practicing doctors. As of 15 August 2021, there are 20 undergraduate and 21 post-graduate medical institutes in Nepal whose qualifications are recognized by the Nepal Medical Council, Medical Council of India and World Directory of Medical Schools and are regulated under single government body, Medical Education Commission, Nepal.

The Bachelor of Medicine and Bachelor of Surgery (MBBS) curriculum is a four-and-a-half-year program followed by a one-year mandatory internship. The requirements of the Nepal Medical Council will be strictly adhered to in the standards and criteria of the course. Basic medical science is the main focus of the first two academic years, with interdisciplinary engagement as well as clinical and community linkages. The attitude towards health and the healthcare system is seen as comprehensive worldwide. Tribhuvan University and Kathmandu University provide Bachelor of Medicine and Bachelor of Surgery (MBBS) courses in Nepal.

## REASONS TO STUDY MBBS/BDS IN NEPAL

- Medical colleges in Nepal are top-ranked.
- They are recognized by MCI, WHO, and UNESCO and enlisted with the World Directory of Medical Schools (WDOMS).
- The college also includes its own hospitals and medical institutes.
- Medical colleges in Nepal are very affordable.
- Installments are an option for paying the tuition.
- Friendly and quiet college environment.
- International students can stay in dorms at colleges and institutions.
- Dorms and hostels include affordable mess and rooms.
- Students graduating from here become world-class doctors.

# PROGRAMS AND ACADEMIC OVERVIEW OF MEDICAL COLLEGES IN NEPAL

## **BACHELOR OF MEDICINE AND BACHELOR OF SURGERY (MBBS PROGRAM)**

Medical Colleges in Nepal provides a four-and-a-half-years MBBS degree program in all the preclinical subjects and selected clinical subjects. The four-and-a-half years MBBS course is divided into 9 semesters of 6 months each. Upon successful completion of the course, students will undergo a 1 year compulsory residential rotating internship. The medium of instruction is English.

Many students have passed out Reputed Medical Colleges in Nepal till date & most of these graduates have successfully qualified for USMLE (USA), PLAB (UK), ERPM (Sri-Lanka), AMC (Australia) with commendable scores and also completed their post-graduation in USA, Canada, UK, South Africa & Australia.

## **MBBS CURRICULUM-Preclinical (Semesters I-IV):**

The first & second year of instruction cover integrated Preclinical Sciences, Community Medicine, Introduction to Clinical Medicine and Medical Informatics.

Preclinical Sciences include Anatomy, Biochemistry, Microbiology, Pathology, Pharmacology & Physiology. These subjects are taught in an integrated manner & are incorporated into Community Medicine and Introduction to Clinical Medicine. Students gain clinical knowledge & problem solving skills. Medical Informatics is integrated to provide computer expertise relevant to medical education.

At the end of the first year & the second year there are university examinations on each of the above subjects. A student must complete all subjects of the pre-clinical sciences - first year MBBS within three years from the date of admission & second year within four years from the date of admission.

A student is required to pass all the preclinical subjects before he/she is allowed to be promoted to the Clinical Sciences (Semester V).

## **Clinical Sciences (Semester V-IX):**

Clinical Sciences include the subjects of Forensic Medicine, Community Medicine, Ophthalmology (EYE), Otorhinolaryngology (ENT), Medicine & Allied Subjects (Psychiatry, Dermatology, Radiology, Emergency Medicine & more), Surgery & Allied Subjects (Orthopedics, Anesthesiology & more), Obstetrics & Gynaecology, Paediatrics, and other allied medical and surgical specialties & subspecialties.

The third year MBBS university examinations in Forensic Medicine, Community Medicine, Ophthalmology & Otorhinolaryngology are held at the end of the seventh semester. A student cannot be

admitted to the ninth semester until he/she has passed all four subjects. At the end of nine semesters are the final MBBS university examinations in Medicine and Allied Subjects, Surgery & Allied Subjects, Obstetrics & Gynaecology & Paediatrics.

Clinical training is conducted at the Concerned Medical Teaching Hospital and associated local hospitals.

## **EVALUATION:**

A system of continuous evaluation is followed through fortnightly tests, semester exams, end-posting evaluations, seminars & problem based learning sessions. The continuous evaluation system has helped to achieve excellent results in the university examinations.

## **Teaching Methodology**

The teaching program in preclinical consists of -

- Didactic classroom lectures
- Practicals
- PBLs/Seminars
- Community/ Hospital visits

Fortnightly academic time tables are prepared, giving details of the teaching program with topics to be covered. These are put up well in advance. To support the integrated approach, seminars and PBLs are conducted every fortnight on important diseases/ syndromes. This gives the preclinical students a better clinical orientation of the systems being taught. Concurrent evaluation is done by fortnightly test, viva-voce, seminars and PBLs. Semester examinations are held at the end of each 6 months.

The Teaching Program in Clinical Sciences consists of:-

- Didactic classroom lectures
- Clinical/practical training in hospitals, wards / Community visits/ Field training camp
- Symposia/Seminars
- Clinical meetings/ Faculty talks/ Guest lectures

The above teaching sessions take an average of forty two hours/week, out of which there are 12 didactic lectures per week. The stress is mainly on Clinical/ Practical training. The students are periodically assessed by conducting end posting clinical exams (Clinical and Viva), mid-semester exams and end-semester exams.

## **INTERNSHIP**

One year of rotating internship is compulsory. The Kathmandu University and Nepal Medical Council have approved six different schemes for internship for students of different countries, as per the requirements of their medical councils. Students do their internships in Nepal, India, Sri Lanka, Australia, USA, UK and South Africa. Internship rules are subject to change as per the rules of the medical council.

# TRIBHUVAN UNIVERSITY

Kirtipur, Kathmandu | [tu.edu.np](http://tu.edu.np)

Tribhuvan University (TU), which was established in 1959, is the first national institution of higher education in Nepal. Tribhuvan University is a public university in Kirtipur, Kathmandu, Nepal. TU is the oldest university in Nepal. [4] In terms of enrollment, it is the ninth largest university in the world. The university offers 2,079 undergraduate and 2,000 postgraduate programs across a wide range of disciplines. As of September 2014, the university has 88 constituent campuses and 1,033 affiliated colleges across the country. [5] Since it is government financed, it is less expensive than private universities.

After the second democratic movement of 2006, the Prime Minister of Nepal is the ceremonial chief, the Chancellor of the University, whereas the Minister of Education is the Pro-Chancellor. The Vice Chancellor is the Chief Executive of the university. He is assisted by the Rector in academic programs and the Registrar in financial management and general administration.

Tribhuvan University is a non-profit making autonomous institution funded by the Government of Nepal. On January 8, 2013, the government of Nepal has principally agreed to declare Tribhuvan University as the Central University.

## **Institute of Medicine (IOM) was established with the following goals:**

- Production of human resources for health services
- Provide health services through its health institutions
- Conduct research in health sciences

## **Courses offered:**

MD/MS/MBBS/BDS/BPH/Nursing/MIT/BASLP/Pharmacy/BAMS/Public health and many more.....

## **Entrance Information for IOM**

IOM conducts an entrance examination usually in the month of September each year. 100 objective questions 1 mark each are asked in entrance examination which lasts 2 hour.

## **Subjects:**

Physics (20 marks)

Chemistry (30 marks)

Zoology (30 marks)

Botany (20 marks)

## **TU AFFILIATED MEDICAL COLLEGE**

- Nepalese Army Institute of Health Sciences, Kathmandu
- Institute of Medicine (IOM), Kathmandu
- Universal Medical College (UCMS), Bhairahawa
- Janaki Medical College (JMC), Janakpur
- KIST Medical College (KISTMCTH), Lalitpur
- Chitwan Medical College (CMC) Bharatpur
- Gandaki Medical College (GMCTHRC), Pokhara
- National Medical College (NMC), Birgunj

# CHITWAN MEDICAL COLLEGE

Bharatpur, Chitwan, Nepal | [www.cmc.edu.np](http://www.cmc.edu.np)

Under the affiliation of Tribhuvan University, Chitwan Medical College (CMC) was started and maintained by renowned professionals and practitioners of Nepal which makes this campus peculiar and thus provides a world-class education to future academics and health care professionals at affordable prices. Chitwan College is under the management of highly qualified and reputed experts and professionals.

Chitwan Medical College was founded on 20th June 2006 as the outcome of the incessant and untiring efforts of a highly experienced and motivated group of professionals and experts. It is a pioneering institute in the field of development of human resources. The faculty at Chitwan College includes highly experienced, conscientious, dedicated, and motivated members from both inside and outside the country.

Chitwan Medical College stands out on top among other medical colleges in Chitwan due to various reasons:

- Provide quality education to the academics, practitioners, and undergraduate and postgraduate students of different medical streams
- Provide technologically advanced and qualitative diagnostic and treatment facilities
- Research programs to increase professional skills and competencies in parallel with the world's contemporaries.
- Has Established a trauma and tropical research center
- CMC fulfills the needs of the people seeking quality education and services in health at affordable prices
- Produced efficient and competent health professionals who are capable of providing quality care to people
- Add structure to scientific knowledge in medicine field by promoting research in CMC
- Provides both preventive and curative health care to people to their highest satisfaction

## 9 DM/MCh Programs | 25 Postgraduate Programs | 8 Undergraduate Programs

At Chitwan Medical College every department has the facility of laboratory with preparation room, demonstration room, museum room, department library, seminar hall, laboratories, hostel facility Libraries with internet facility (more than 6000 books, separate rooms for faculties), seminar rooms, well-equipped lecture halls, and departmental museum.

# B.P. KOIRALA INSTITUTE OF HEALTH SCIENCES

Buddha Road, Dharan | [bpkhis.edu](http://bpkhis.edu) | [registrar@bpkhis.edu](mailto:registrar@bpkhis.edu)

B.P. Koirala Institute of Health Sciences (BPKIHS) was established on Jan 18, 1993 and subsequently upgraded as an autonomous Health Sciences University on Oct. 28, 1998 with a mandate to work towards developing socially responsible and competent health workforce, providing health care & involving in innovative health research. The Institute, located in Eastern Nepal, has extended its continued health services through teaching district concept to Primary Health Care centers, District Hospitals and Zonal Hospitals in different districts of the region.

This Institute is envisaged as one of the successful examples of Nepal-India co-operation. The Health Ministers of the two countries signed the Indo-Nepal agreement for establishment of BPKIHS on the Hindu auspicious day of Mahashivaratri (Mar 10, 1994). BPKIHS has a vision of a self-governing, self-reliant international Health Sciences University attracting students and teachers from all over the world to its constantly innovative educational programs. BPKIHS has also been envisioned by the Nepali Parliament as a centre of national importance to produce skilled health workforce to meet the country's need and also to function as a center of excellence in the field of tropical and infectious diseases. Its best example is the ongoing Kala-azar Project in collaboration with international bodies. BPKIHS has postgraduate, undergraduate, and university certificate programs and from this year starting Doctor of Philosophy.

## PG Specializations

MD (Anesthesiology, Biochemistry, Dermatology and Venereology, General Practice and Emergency Medicine, Forensic Medicine and Toxicology, Obstetrics and Gynaecology, Health Professions Education, Internal

Medicine, Microbiology, Ophthalmology, Otolaryngology & HNS, Pediatrics and Adolescent Medicine, & HNS, Pediatrics and Adolescent Medicine, Pathology, Clinical Pharmacology and Therapeutics, Basic and Clinical Physiology, Psychiatry, Radiodiagnosis and imaging) [MS Surgery, MS Anatomy, MS Orthopedics] [PhD] program. It has four colleges. Medical, Dental, Nursing and Public Health with a 700-bedded Central Teaching Hospital. The medical college has well-established major clinical and basic science departments. Postgraduate programs [MD, MS, and MSc] were started in 1999. All the MD, MS, MDS, MSc and MPH degrees awarded by BPKIHS are recognized by Nepal Medical Council and respective councils of Nepal. The MD/MS degrees (anesthesiology, clinical pharmacology & therapeutics, dermatovenerology, ENT, internal medicine, orthopedics, pediatrics, psychiatry, radiodiagnosis, and surgery) are recognized by Medical Council of India [MCI]. Similarly, there is continued effort for getting MCI recognition of other disciplines as well. While selecting candidates for MD/MS/MDS postgraduate studies, the institute has given due recognition to the medical graduates who have served in the primary health centers and/or district hospital.

## When will be the entrance exam?

BPKIHS conducts an entrance examination usually in the month August.

## What is the exam format for entrance?

200 objective questions 1 mark each are asked in entrance examination which lasts 3 and half hours.

## COURSES OFFERED

► MD ► MS ► MBBS ► BDS ► Nursing

# JANAKI MEDICAL COLLEGE

Janakpur, Nepal | [www.ngmc.edu.np](http://www.ngmc.edu.np)

Janaki Medical College (JMC) situated in Janakpur, Dhanusha, Nepal has been an initiative of Ram Janaki Health Foundation Pvt. Ltd to provide health education and healthcare services through its competent professionals in medical academia. Founded in December 1999 in the northern rural part of the Janakpur City, known as Ramdaiya Bhawadi, by a group of social and academic entrepreneurs with an immense local support, JMC has established itself as one of the most prominent medical colleges affiliated to Tribhuvan University.

The College has already opened its two hospitals, one in Ramdaiya with 160 beds where academic activities are also carried out and another one with 365 beds in the city centre. The premise of more than 16 bigahas (a local unit to measure the area of land) in Ramdaiya consists of academic and hostel buildings, hospital facilities and administrative blocks. Teaching-learning activities take place in Ramdaiya premise whereas the city hospital of the College provides bedside learning facility and internships to the students.

Academic and healthcare facilities provided by the College have been regularly inspected by the Institute of Medicine, Tribhuvan University, Nepal Medical Council and Ministry of Education, and suggestions and recommendations provided by them during inspection have been incorporated by the JMC management to improve its facilities by overcoming challenges in order to enhance academic and hospital services.

Janaki Medical College is now committed to learn from its past experiences and ready to take the responsibilities which will help ensure the quality health/medical education and hospital services through cutting-edge technologies. As a responsible stakeholder of health education and services, JMC is willing to have the partnership with the government and the community as well. A partnership between the government, local communities and Janaki Medical College for quality health education and services in Dhanusha and adjoining districts!

**COURSES OFFERED: MBBS | B.Sc Nursing | BN | PCL Nursing**

# INSTITUTE OF MEDICINE

Maharajgunj, Kathmandu, Nepal | [www.iom.edu.np](http://www.iom.edu.np)

The Institute of Medicine (IoM), established in 1972 at Tribhuvan University, was entrusted with the responsibility of training health care workers at all levels for the health care needs of Nepal. Within the first decade of its establishment, the IoM developed 12 campuses scattered over the country: three campuses in Kathmandu and nine outside the Kathmandu Valley. Initially, the emphasis of IoM was on the training of middle-level health workers. Programs serving this purpose include ANM, CMA, Proficiency Certificate Course in General Medicine, Pharmacy, Radiology, Physiotherapy, Nursing, Health Laboratory and Traditional Medicine.

The institutional goals of IoM have continued to change. The mission of the IoM expanded into training tertiary-level health professionals. By 1977 it had at the graduate level two-year Bachelor programmes in Community Nursing, Paediatric Nursing and Adult Nursing. In 1978, a community-oriented integrated MBBS programme was started with intake of 22 students. Subsequently, the class size was increased to 60, and in 2013 it was further increased to 76.

Established with a very modest beginning of producing basic level healthcare manpower in the country in 2029 BS, it has taken this long time to reach this milestone where it is today. We must take this opportunity to thank and felicitate our founding members to bring this institute into being. Their foresightedness has to a certain extent created an environment for producing the healthcare manpower in the country thus decreasing dependence on foreign training. The very existence of this institute is a testimony of the vision, dedication and commitment our founding members had.

Our graduates around the world have bought accolades and laurels to the institute. Institute of Medicine has been the temple of learning and a perennial fountain of knowledge. Those who have graduated and graduating will always revere this institute lifelong for what they have gained during their training period in this sacred place. Now for more than a decade the institute has been producing super specialty manpower in the country to suit our needs. It's a daunting task for IOM to manage seven constituent campuses, 15 affiliate campuses and six hospitals under the belt. The present leadership is very able to create harmony, conducive environment and cooperation among all the campuses and hospitals.

## **COURSES OFFERED:**

**MBBS | BDS | BAMS | Nursing | Pharmacy | Optometry | BPH | BMLT | BASLP**

# NATIONAL MEDICAL COLLEGE

Birgunj-15, Parsa, Nepal | [nmcbir.edu.np](http://nmcbir.edu.np)

National Medical College was established in the year 2001, promoted by the "National Medical College Company Pvt. Ltd." under the Chairmanship of Prof.Dr.Jainuddin Ansari, an outstanding surgeon who has earned national and international credentials for the promotion of Medico-Social services. National Medical College is one of the best medical colleges in Nepal, in fact the number one among all medical colleges in terms of infrastructure, academic facilities and modern sophisticated medical equipment.

NMCTH is committed to provide quality services and medical care to each and every citizen coming to NMCTH. In line with our mandate, we, at NMCTH, strive hard to provide comprehensive, high quality tertiary care services to our users. However, there may be some deficiencies due to extreme patient load and limited resources.

This charter seeks to provide a frame work, which enables our users to know:

- The services available in this hospital.
- The quality of services they are entitled to and the means through which complaints regarding denial or poor quality of services will be redressed.

We provide affordable medicine to patients in a friendly environment and with a spirit of compassion. That the changes are on par with the government hospitals bears testimony of our community to providing high quality medical care for all sections of the society. NMCTH has modern sophisticated equipment like bronchoscopes, ECHO, ECG, endoscopes, colposcope and 64 Slice CT Scanner for use in the hospital. We have fully equipped ICU, CCU, NICU and PICU. CAC and PAC services are also provided.

The daily outpatient attendance has exceeded eight hundred fifty during summer months and the patient admissions show a healthy increase every day. A patient is the doctor's best guide and every students need to be a complete. Our aim in the coming years is to have patient flow on par with the decade's old government run hospitals outside the valley.

**COURSES OFFERED:** ► MBBS ► MS ► MD ► NURSING

# NEPAL ARMY INSTITUTE OF HEALTH SCIENCES

Kathmandu, Nepal | [nahis.edu.np](http://nahis.edu.np)

Tri-Chandra Military hospital (TCMH), established in 1925 AD (BS 1982) in honor of Nepalese soldiers who dedicated their life in the First Great War was considered one of the best modern hospitals of its time. Besides the historical identity and its architectural grandeur, TCMH has many more glories attached to its name. It was the first hospital to introduce fiber optic endoscope services and establish semi automatic pathology lab in the country. Its upgraded services were shifted to Shree Birendra Hospital (SBH) in Chhauni, Kathmandu in 1989 availing new technology and treatment modalities like MRI and Extra Corporeal Shock wave lithotripsy (ESWL), multislice Helical CT for the first time in Nepal. The transformation of TCMH services to SBH and subsequently NAIHS moving in on this footing has been considered major milestones in the history of Nepalese Army Medical Corps (NAMC).

The concept of NAIHS originated with the imminent need to improve patient care system within Nepalese Army Medical corps which could only be achieved by igniting medical potentialities of its health professionals with academic fire by having a medical institute of its own. There is an acute short fall of the qualified Health professionals in the country and Nepalese army Medical corps (NAMC) is no exempt.

SBH is a 490 bedded multidisciplinary modern hospital with all specialty services. However qa a few specialties need upgrading.

Nepal Army Medical Corps(NAMC) has vast experience of running hospital since last 80 years. SBH is the main teaching hospital of NAIHS. This hospital is commanded by a separate commandant directly under director General of Medical Services of Nepal Army Headquarters. All the clinical departments and most of the ancillary units are located at SBH. With the establishment of NAIHS,

## Existing Clinical Departments in the Hospital

- Department of Medicine
- Department of Pediatrics
- Department of Psychiatry
- Department of Dermatology, Venereology & Leprosy
- Department of Chest Department
- Department of Surgery
- Department of Orthopedics
- Department of Radio-Diagnosis
- Department of Oto-rhinolaryngology
- Department of Ophthalmology
- Department of Obstetrics and Gynecology
- Department of Dental Surgery
- A&E Department
- Department of Anesthesia
- A fully equipped Urology unit with extra corporeal and intra corporeal lithotripsy, PCNL and other endourological modalities.
- Fully equipped Laparoscopic Surgical setup
- Physical and Rehabilitation Medicine Centre which is envisioned to be developed into a National Rehabilitation Centre of the country.

## COURSES OFFERED ▶ MBBS ▶ Nursing

# UNIVERSAL COLLEGE OF MEDICAL SCIENCES

Bhairahawa, Rupandehi, Nepal | [ucms.com.np](http://ucms.com.np)

Universal College of Medical Sciences (UCMS) was established in 1998 under the Universal Institute of Advanced Studies & Research Pvt. Ltd. (UIAS&R) and has made a remarkable name in the field of medicine and dentistry in Nepal. It is affiliated to the Institute of Medicine, Tribhuvan University and is recognized by the Nepal Medical Council (NMC). The Universal college is located at Bhairahawa in the district of Rupandehi. Universal College of Medical Sciences was established with a purpose to train and bring out competent medical professionals from all over the globe. Since its inception, the college has already produced more than 2000 doctors who are practicing in their respective disciplines not just in Nepal but all over the world.

UCMS has an outstanding result in medical education with almost two decades of experience and is dedicated towards quality education and excellent health services. This Institute consists of a 750-bedded hospital with prominent faculties from Nepal, India and abroad with modern equipments and technologies. The college has always focused in delivering the best medical education and care to its students and people.

The main objective of the UCMS and Teaching Hospital is to equip its students with world-class quality education and technical knowledge in the field of medical education and make them professionally competent in their respective area of study. Also, assisting the people with excellent and proper health services at an affordable cost is another objective of the college

## COURSES OFFERED BY NMC: MBBS | BDS | PHARMACY | NURSING

- Universal College of Medical Sciences has a well-furnished academic complex of its own with modern physical infrastructures. It has spacious classrooms with well accommodations.
- The Universal college has a well-stocked library with a collection of huge volumes of books and references related to the subject studies. The library has an accommodation capacity of more than 300 students at once.
- The computer lab fully equipped with unlimited internet facility and power backup at Universal College of Medical Sciences.
- There are separate and well-equipped laboratories for each department of Anatomy, Microbiology, Pharmacology, Pathology, Physiology and so on in the Basic Science block within the college premises.
- The UCMS Teaching Hospital is well equipped with 790 beds and all the required modern technologies and equipments.
- Universal College of Medical Sciences has Memorandum of Understanding signed with the Lumbini Zonal Hospital.
- This institution also organizes regular workshops and seminars for the overall development of its students as well as national and international exposure of its students in the medical field.
- It provides separate hostel for boys and girls and another one for the PG students. The hostels are well accommodated and furnished.
- Universal College of Medical Sciences has a well-managed and hygienic cafeteria within the college premises.
- The college also has its own Health Club and organizes various kinds of sports activities all year round.

# KIST MEDICAL COLLEGE

Imadol, Lalitpur, Nepal | [kistmcth.edu.np](http://kistmcth.edu.np)

KIST Medical College (KISTMC) established in the year 2006. The college is affiliated with the Institute of Medicine (IOM), Tribhuvan University (TU) for the MBBS Course from the year 2008 and for the BDS course from the year 2011. Both the programs are recognized by the Nepal Medical Council. The College runs a 300 bedded hospital equipped with state-of-the-art infrastructure and every modern facility. The college also has well equipped lecture halls, seminar rooms and basic medical science practical laboratories as per the norms of Nepal Medical Council (NMC).

The aim of KISTMC is to be a reputed medical college both at the national and international level by bringing together the best of the curriculum in a serene academic environment through the dedicated professional services of competent and committed faculty and staff.

**MBBS | BDS**

# KATHMANDU UNIVERSITY

Dhulikhel | [ku.edu.np](http://ku.edu.np) | [kusms.edu.np](http://kusms.edu.np)

Kathmandu University is an autonomous, not-for-profit, non-government institution dedicated to maintain high standards of academic excellence. It is committed to develop leaders in professional areas through quality education.

Within a period of 21 years, KU has built not only reasonable infrastructure, but also established a track record of academic excellence. At present, the University offers various undergraduate, graduate and postgraduate programs in science, engineering, medicine, management, education, arts, pharmacy, environment, music, human & natural resources, information technology and biotechnology, through School of Science, School of Management, School of Engineering, School of Medical Sciences, School of Education and School of Arts. In addition to 3695 students studying in its constituent campuses 7500 students are in its affiliated colleges.

The academic programs of the University are based on credit-semester system with continuous internal evaluations. The University has adopted 1 to 10 teacher-student ratio. However, KU is very cautious in recruitment of every single faculty or non-teaching staff. The staff strength at KU is 458 for teaching and 725 for non teaching (Including Paramedical staff). The academic calendar of minimum 230 days is strictly adhered to; admission of students is based on merit, based on their score in the previous examination and written and oral entrance tests.

The main thrust of KU is to make it a research-cum-teaching university in science, management, engineering, medical sciences, arts and education.

## Entrance Information for KU

KU conducts an entrance examination usually in the month of September/October with 100 objective questions 1 mark each are asked in entrance examination which lasts 2 hour. Its syllabus is similar to that of MOE (Ministry of Education, Nepal)

## Subjects:

Physics (20 marks)

Chemistry (30 marks)

Zoology (30 marks)

Botany (20 marks)

## KATHMANDU UNIVERSITY AFFILIATED MEDICAL COLLEGE

- Devdaha Medical College (DMCRI), Devdaha

# COLLEGE OF MEDICAL SCIENCES

Bharatpur, Chitwan, Nepal | [www.cmsnepal.edu.np](http://www.cmsnepal.edu.np)

College of Medical Sciences is a medical school that is located at Bharatpur, Chitwan. The college has undergone a lot of changes and modifications to the need-based health care system of Nepal since its establishment on 8th August 1993. With the modern concept of globalization of healthcare education as well as hospital care of patients, the College of Medical Sciences has endeavored to educate undergraduates to produce healthcare personnel of high quality. This institution is the premiere medical college in the heart of Nepal, besides having very eminent and experienced faculty who are endowed with international fame and indulge in a curriculum that is student-centered and has learning objectives of a wide range of subjects. The curriculum is horizontally and vertically integrated and passive lectures are meager. Problem-based learning is emphasized and encouraged among the students.

The objectives of CMS, Chitwan are:

- To produce quality clinicians and able managers for primary level well-being and facilitate bringing in optimum health care services required for the local community right at their doorsteps.
- To produce clinicians of specialties to provide appropriate and correct health delivery systems.
- To assist the government to promote and standardize Healthcare Education and produce appropriate manpower for the fulfillment of its obligation to the community.
- To make future doctors understand the psycho-social needs of the community and conduct research, thus making them capable of pursuing postgraduate courses and developing cost-effective health services.
- To prepare the students to understand and promote other systems of medicine to develop and appreciate the philosophical and ethical values of this medicine.
- To prepare the College of Medical Sciences to take an active part in building the health care delivery system of Nepal in general and the Chitwan district in particular.

Besides this, the College of Medical Sciences also offers quality accommodation facilities in the form of separate hostels for boys and girls. The hostels also provide good and affordable canteen facilities that serve various types of food items such as Nepali, Indian, Chinese, Continental, etc. College of Medical Sciences also has modern indoor and outdoor playgrounds for the all-round development of the students, and also provides special facilities for Yoga and Gymnasiums.

## **COURSES OFFERED BY COLLEGE of MEDICAL SCIENCES:**

**MBBS | B.Sc Nursing | BDS | MD/MS | DM/M.Ch Courses | Bachelor of Pharmacy**

# MANIPAL COLLEGE OF HEALTH SCIENCES

Deep Heights-16, Pokhara | [manipalpokhara.edu.np](http://manipalpokhara.edu.np)

Manipal College of Medical Science (MCOMS) Nepal is one of the premier institutions of Nepal, offering programs in medicine. It was established in 1994 as first private medical college of Nepal and was born out of the vision to build global leadership in human development, education and health care partnerships and a "Health for all" mission.

Rated amongst the best college of Nepal, Manipal College of Medical Sciences (MCOMS) is an ideal centre of learning for medical studies. MCOMS is a modern campus with all conveniences, state-of-the-art teaching aids and well equipped labs. MCOMS is also a cultural hub of activity as students from many different countries converge to take advantage of the exceptional faculty, holistic curriculum and innovative teaching methods.

## Recognitions:

- Establishment of undergraduate medical degree program in 1994 with an annual intake of 100 admissions
- Affiliation with the Kathmandu University with effect from 31st December 1994
- Commencement of the 750-bedded Manipal Teaching Hospital in 1998
- Full and permanent recognition by the Nepal Medical Council on 6th August 1999
- Recognition by the British Columbia Student Assistance Program (BCSAP) and Ontario Student Assistance Program (OSAP), Canada
- Recognition of the MBBS degree by the Government of India under Section 12(2) of the IMC Act 1956 on 26th September 2001
- Establishment of postgraduate degree programs in Pathology (MD) and other Basic Sciences (MSc) subjects in 2000

## COURSES OFFERED

MBBS | MD | Nursing

Manipal Teaching Hospitals: The 750 bed capacity Manipal Teaching Hospital (MTH) is a 7 storey building with a total built up area of 5 lakh sq ft. It is a magnificent edifice, blending modernity with the traditional Nepal style of architecture. The outpatient services were inaugurated in September 1998 and inpatient services started in January 1999, with modern diagnostic facilities and support services for secondary and tertiary level medical problems. MTH has been constructed with a futuristic approach laying emphasis on the space required for teaching program for the undergraduates, postgraduates and allied health manpower. Manipal Teaching Hospital set up with state of the art facilities for superior medical education and healthcare.

- Commencement of allied health sciences (BMLT & BMIT) degree programmes in 2001
- Addition of a number of ultra-modern speciality services including NICU, Neuro Surgery, Linear Accelerator, Spiral CT Scan, MRI etc. in the Manipal Teaching Hospital and continuous upgradation of existing hospital services which include addition of latest equipments e.g. Phaco in the Ophthalmology dept, ICU's equipped with Ventilators and Monitors etc.
- No capitation fee – a remarkable achievement in the field of medical education
- International Students and Faculty Members at the Campus – Since its inception the college has been attracting international students and the number is increasing every year in view of the global teaching standards employed at MCOMS. The college has also been successful in attracting international faculty members.
- A large number of graduates are placed at various prominent international health care institutions after passing out the international medical licensing exams e.g. USMLE & PLAB with scores up to 99%.

# NOBEL MEDICAL COLLEGE & TEACHING HOSPITAL (P) LTD

Kanchanbari, Biratnagar, Nepal | [nobelmedicalcollege.com.np](http://nobelmedicalcollege.com.np)

Nobel Medical College Teaching Hospital & Research Center Vision & Mission Pvt. Ltd. was established in 2007 in Biratnagar in Eastern Region of Nepal. Since then, this College and Hospital have been involved in imparting international standards of medical education to the meritorious students of Nepal and India enrolled for the MBBS degree.

The faculties of national international fame have joined this College and have contributed to attain international standards of medical education. This has been supportive towards its process of inclusion in the World Directory of Medical Schools, WHO.

Nobel Medical College is affiliated to Kathmandu University (KU) and fully recognized by the Nepal Medical Council (NMC). The academic standards in this college have been set and followed at par with the requirements of other medical councils and universities round the world including India.

The college presently has a fully functioning 620 bedded hospital of its own to serve the patients from various communities of Nepal and adjoining India. The hospital plans to expand and reach bed strength of 700 and start super specialty services with eminent super specialized doctors in near future.

## COURSES OFFERED BY NMC: MBBS | BDS | NURSING

## GOALS AND MISSION OF NMC

Overall Vision, Mission and Goals of NMC is to produce Doctors of Tomorrow's Nepal .The Vision of Nobel Medical College Teaching Hospital (NMCTH) is to provide quality medical education in a holistic way and serve the various communities of Eastern Nepal.

The Mission of Nobel Medical College Teaching Hospital (NMCTH) is to promote human health while stimulating innovation as education is provided at NMCTH in a dynamic learning environment in order to develop physicians, medical scientists and public health professionals. They are trained to become leaders in their respective fields so that they can contribute effectively to the advancement of the basic and clinical sciences in medicine through discovery, research, and publication/communication and provide best care to patients and serve the communities.

The Goals of Nobel Medical College Teaching Hospital (NMCTH) is to produce doctors who are compassionate, community oriented, affective towards the serving society, competent in application of good communication skills, medical ethics and professionalism with sound cognitive domain and efficient psychomotor skills.

# BIRAT MEDICAL COLLEGE

Biratnagar, Morang, Nepal | [www.biratmedicalcollege.com](http://www.biratmedicalcollege.com)

Birat Medical College (BMC) is the newest medical school in Nepal. Established in 2014 as an extended program of Kathmandu University, BMC is now gearing up for its fifth intake. Each year 75 national and international students join BMC to pursue their life-long passion and goals.

Birat Medical College (BMC), an institute under Kathmandu University, has on site a specialized campus dedicated to the education and preparation of Medical Health professionals with strong commitment to further workforce development and continuing education. BMC campus, spread over 22 bigha (over 33 acres) of land, comprises of state-of-art academic and research facilities, consisting of spacious and well equipped laboratories, dissection halls, museums with large number of specimens, library etc.

Birat Medical College (BMC) was awarded an extension program by The Kathmandu University since August

2014. This fully accredited college currently runs an MBBS program as an extension of Kathmandu University School of Medical Science (KUSMS). Finance and Operation of BMC is independent but is directly under the supervision of KU in terms of Academics, Examination and Teaching Calendar.

Birat Medical College is located at Tankisinwari, Biratnagar, with 15 specialized departments. Birat Medical College, Biratnagar, is the outcome of Dr. Gyanendra Man Sing Karki. By 1992 AD, there were only few hospitals in Nepal regarding Gynaecological sector.

As of July 2014, we are Birat Medical College, School of Medicine. Our first class of medical students will begin their studies this August. Birat Medical college has been established on the base of Biratnagar Aspatal Pvt. Ltd. which has over the past two decades strived to uphold the culture of excellence in providing the finest healthcare.

## Reasons to Choose BMC

- Learn from the best

BMC has a commitment to the excellence that underpins all of the campus's activities, particularly teaching and research. We attract faculty of international standing, many of whom have extensively worked in the numerous research centres and esteemed universities, nationally and internationally. These academic leaders, many of whom with doctoral qualifications, pass on their expert knowledge to students, who then gain a respected qualification and skills required in today's challenging medical environment.

- Commitment to teaching
- The location advantage
- A highly supportive educational environment
- Outstanding rural program

With a mind-set to address health workforce shortages, and under deserved poor communities, primarily in rural and regional Nepal, BMC has continually grown to partner up and run community based outreach programs, that aim to lead and direct the rural health agendas through the highest quality education, training, research and community services.

Through such outreach satellite centres, BMC offers a unique opportunities for our undergrad students to familiarize themselves with hands-on experience that would enhance their ability to acquire skills in dealing with current health issues through direct exposure with mass and users.

# PATAN ACADEMY OF HEALTH SCIENCES

Patan, Lalitpur, Nepal | [www.pahs.edu.np](http://www.pahs.edu.np)

The Patan Academy of Health Sciences - PAHS (Patan Swasthya Bigyan Pratisthan) was established in 2008 AD (2064 BS) as a public not-for-profit tertiary academic institution dedicated to improving Nepal's rural health by training health workers for rural Nepal.

The goal of PAHS is that its graduates will not only provide severely needed medical care in rural Nepal but will also eventually become leaders in health care policy, dedicated to improving the health of the remote and destitute populations in Nepal. Furthermore, PAHS will serve as a model of innovative medical education in a developing country, which can be replicated elsewhere.

The Patan Academy of Health Sciences (PAHS) is dedicated to improving the health status of the people of Nepal by producing doctors who are willing and able to provide health care to disadvantaged Nepalis living in remote or rural areas. The academy initially consisted of a School of Medicine (SoM), which began to teach prospective doctors in 2010. In the year 2016, PAHS started its various nursing programs under the School of Nursing and Midwifery (SoNaM) after the acquisition of Lalitpur Nursing College in Sanepa which was before-hand running programs from Tribhuvan University (TU), the oldest and the only government institution in Nepal under Institute of Medicine (IOM). In 2017, PAHS started in Masters Program in Public Health (MPH) under the School of Public Health (SoPH). In the future, PAHS is expected to open a School of Allied Health Sciences to train other health care professionals.

## COURSES OFFERED BY PAHS: BN | PCL NURSING | BNS | MN

PAHS has MBBS course duration of 6 years unlike rest of the universities in Nepal. PAHS also has international tie up for the clinical placement such as The University of Sydney. It has also started its own School of Nursing, which runs nursing programs of all levels including PCL, BN, BSc Nursing and Masters in Nursing. It also run its own School of Public Health, and post graduate course in clinical sciences.

The hospitals and health care centers where students complete these rotations are carefully chosen to ensure that students have positive learning experiences. PAHS faculty and staff give the students careful guidance
